Heidi Wilson

I was born and raised in Metro Detroit and I have lived in the Lakes Area of Oakland County for the past 15 years with my husband, Brent, and our 2 kids, Grayson & Ellie. In my free time, I love to travel, golf, and hang out with family and friends.

I started my career in real estate in 2005 on the financing side of the mortgage industry. After that, I managed our rental property and was also a private lender on some investment properties prior to getting my real estate license. I joined Keller Williams in 2018 and since then have been a top-producing agent in our office. I currently serve on the Associate Leadership Council and am the committee chair for Career Development. These experiences have given me extensive knowledge in all aspects of the real estate transaction which enables me to provide a world-class experience for my clients all across the Metro Detroit area.

Testimonials

Heidi helped us sell and buy a house in 2019. She helped negotiate throughout the process when the purchasers of our previous house got delayed with financing. She went to bat for us again and again and made sure that each plan made had our best interests in mind. She did the same with our new house. It is now 3 years later and I knew I could call her while we navigated needing a new roof and all new windows. She knows how much things should cost and how to speak to relators, contractors, and homeowners. I can not say enough about all she does for her clients!

OUR STORY

It all began with a love of dessert and the science behind baking. Mary O'Connor, a native of farm-town Mason, MI, grew up in a home where love was shown through various homemade, decadent baked goods. At the age of 12, she entered her first junior baking competition at the Ingham County Fair and won first prize. From then on, she was hooked. From Grandpa Joe's many loaves of moist banana bread to her mother's triple chocolate bundt cake or her Aunt Jean's buttery caramels, dessert became a complete necessity in life- an extension of her true passion to bring people together. Of all the desserts though, one in particular was her absolute most favorite: the all-American chocolate chip cookie.

Together with her husband Derek, Mary moved to the metro-Detroit area in 2015 to pursue an education as a veterinary nurse. To combat the stressful and intense studying schedule, she embarked on a quest to create The World's Best Chocolate Chip Cookie. Together with an old hand-mixer, her trusty green mixing bowl, a group of "professional" taste-testers, and an ever-lasting supply of butter, The World's Best Chocolate Chip Cookie was created in July 2017, nearly 100 trials later.

Together with Derek's background in building business and Mary's culinary creativity, Chocolate Chipped Bakery, LLC, was officially established in August 2017 and has already gained a large fan base in the Farmington area. In addition to their original chocolate chip cookie, they offer fun, creative flavors such as confetti cake batter, pumpkin spice chocolate chip, and gluten free-vegan chocolate chip.

CAMI GATON

"Working with Paul has completely transformed my relationship with both food & fitness. Prior to training with Paul, I was too nervous to step foot into a gym. Now, I can walk into any gym around the world and feel confident in my ability to get a great workout in no matter the equipment available. Even after 4 years he still brings new movements & exercises to our workouts. Each year we set goals and each year we achieve them. What sets him apart from other trainers I've worked with is his breadth of knowledge in all areas of health & fitness. Want to incorporate more running/cardio into your routine while simultaneously lifting heavy and hitting PR's? He will get you there. Injured? No problem for Paul. He takes time to understand your injuries and works with you to personalize your training and ensure you recover properly. By working with Paul I've been able to build a sustainable, healthy lifestyle that incorporates heavy lifting &distance running – all while still enjoying the things I love and having balance. He's become more family than just a trainer – he's personable and he practices what he preaches!"

Cultivating equity in under-resourced schools with mindfulness-based resilience and leadership curriculum. Together, we can close the achievement gap from the inside out.

WHAT WE'RE FACING

Schools are the frontlines of the future, yet their systems of support are outdated. Educators rarely receive the resources they need to meet the mounting stress, anxiety, and trauma of their students (let alone take care of themselves!). From high dropout rates and teacher turnover to low test scores and staff morale, even the most well-intentioned schools are struggling.

WE BELIEVE THAT MENTAL HEALTH IS A RIGHT, NOT A PRIVILEGE.

A school's success depends on the wellbeing of its students, staff, and administrators. Together, we can support them all. Mind Body Awareness Projects offers research-backed, mindfulness-based training to help you realize your school's potential.

CALM MINDS FUNDAMENTALS

Our Calm Minds program offers professional training for educators, staff, and their students to cultivate long-term, sustainable mental wellness. Based on two decades of experience working with underserved youth, we know that transformation can be challenging, yet is entirely possible when the right tools are in place.

Thank you for everything you've given us over this course of time. It has been extremely beneficial to my life personally and professionally. As a black man in the space, it felt great and inclusive and relevant. That is not very common so thank you so much for that.

TO MAKE A GREAT RECORD YOU WILL UNDOUBTEDLY NEED MORE THAN GREAT GEAR

"... I consider the dedicated, hardworking musicians in our community to be world-class and some of the absolute best in the business. At The Soundscape, we're all musicians and songwriters, so it only made sense to develop a professional, creative atmosphere with the best possible tools to provide the competitive edge that we all deserve. With that being said, I centered the heart of our studio around a beautiful, legendary 30 Channel Trident 80B analog recording – mixing console, humbly purchased from Rami Jaffee of the Foo Fighters. I assure you that I didn't stop there. To make a great record you will undoubtedly need more than great gear. This is why I assembled a knowledgeable, reliable and friendly team of audio engineers and instructors. We can make your next record, or we can teach you how to do it yourself. Our passion for music production is endless. Call for a studio tour today to learn more about our recording studio and state licensed recording arts classes."
